

Ministry of Music

Spirit of the Desert Lutheran Church

Mini-Concert Event

Join us on **May 14th at 9 AM** for a **mini-concert showcasing our new Hammond Organ.**

Dr. Robert Tall - a friend of our congregation - will share the Ministry of Music as he takes over our Rodgers organ keyboard - and together, we will joyfully worship the Risen Lord! The worship will contain a time in which **Dr. Tall will share what the Rodgers Organ can do by way of a mini concert.**

It will be exciting for all of us!
You are encouraged to invite friends, neighbors, and your family to join with you for worship! **This will be a very special Sunday.**

About Dr. Robert Tall

Classically trained, Dr. Robert Tall is one of America's most acclaimed musicians. Using the classical organ as his medium, he applies his composition and arranging skills in a unique approach to an instrument he calls The Modern Organ. His music embraces digital technology and becomes remarkably orchestral and expressive. This new approach is quite daring and the results are often quite dazzling! His concerts are said to be "Organ music for people who dislike organ music!"

Dr. Tall is a major force in the development of digital technology in classical organs, both pipe and electronic. As such, he has become one of the foremost authorities in the development and use of MIDI. Combining his composing/arranging/performing skills with the latest technological advances, he brings organ music, especially transcriptions, into the modern era as only a few can do. He is at home on both pipe and electronic organs and uses MIDI to its full advantage whenever available on an instrument. **His style is unique, daring, entertaining and totally "out of the box."**
